Caused by a Break in the Levee Along the Mississippi at Greenville.

Other and Five Children Caught by the Angry Waters and Drowned Before Help Could Reach Them.

Greenville, Miss., March 28.—A levee break at Greenville, Miss., caused the death of ten lives. The water was so high that the people were unable to escape. The water was so high that the people were unable to escape.

A BLOCK BURNED.

Buildings from Green to Peoria Street in Chicago, Wiped Out.

Ammonia Explosion Caused the Fire and the Injury of Two Men, One of Whom Will Probably Die.

Chicago, March 28.—Hindered by flames, firemen fought the ammonia fumes, firemen fought the ammonia fumes, firemen fought the ammonia fumes. The fire was so intense that the firemen were unable to reach the buildings. The fire was so intense that the firemen were unable to reach the buildings.

N ARMY OF ROGUES

in Washington, Mar. 28.—The forces

of President Boalila, of Honduras, is learned, are being led by Colonel Lee Christman, an ex-officer in the United States army. Among the men in the ranks are deserters from the cruisers New York and Ranger. Christman has 7,000 men under him.

AMERICAN Art Exhibit was Opened in New York Today.

New York, March 28.—The twenty-fifth annual exhibition of the society of American artists was opened today in the Fine Arts galleries and will continue until May 4. Both as regards to number and high class of the works displayed the exhibition is pronounced by critics as fully up to the standard of the former shows held under the auspices of the same society.

GEN. ANDRE TO RETIRE.

Paris, March 28.—The army is considerably interested in the fact that tomorrow General Andre, the war minister, reaches the age limit of 45 years and consequently he will have to retire. The general is a member of the army and has been in the army since the foundation of the Third Republic. This is the first time that a war minister has had to retire. The general is a member of the army and has been in the army since the foundation of the Third Republic.

BEGINNING Made on One of the Largest Electric Lines.

London, March 28.—The beginning of the construction of the new London and North Western railway was made today. The railway is one of the largest in the world and will be completed in 1905. The railway is one of the largest in the world and will be completed in 1905.

EXPECTED To Have the Real Thing at the Game But Gave the Boys Who Did Go Credit for Doing the Best They Could.

One of the very largest crowds of the season gathered at the armory on Wednesday evening to witness what was thought would be Lima's best basketball team combat with the Kenton five. Says the Kenton Republican but a severe disappointment was in store for those present, as the Lima team was made up for the most part of the rawest material, and was smothered by a score of 64 to 1. The Lima boys who came over are all as jolly good fellows as any one would care to meet, but some of them have not even had a gymnasium suit on for a year or two, and when it came to putting up a good article of basketball the Allen county lads were found far in the rear and sadly deficient. Crossen, one of the best Lima players and in fact the only one of the original team accompanied the team and at times did some crack playing and had he had the proper support, might have succeeded in making a basket or two but as it was, when he did start in to do a little brilliant playing, the rest of the Lima player stood off and looking on gaping for wind, and, as there was no one around to help him out, his attempts ended in failure.

Grain and Pork. Chicago, Ill., Mar. 28.—Closing May wheat 72½; corn 43½; oats 22; pork 18.00.

DID NOT COST MUCH

Washington, Mar. 28.—Assistant Recorder Mosely, of the late anthracite coal strike commission, is engaged in figuring up the expenses of that body for submission to the president and the next congress. "Although congress appropriated \$50,000 for the use of the commission," said Mr. Mosely today, "the total expended will not come within \$10,000 of that. The cost of investigation to the country will be approximately \$38,000. No such important investigation has ever been attempted at such small expense nor has any been conducted along more business-like and economical lines.

LABOR FAIR

To Benefit the Labor Movement in Gotham.

New York, March 28.—The great fair in the interest of organized labor for which preparations have been making all winter opens in the Grand Central Palace tonight. The promoters expect that not less than 200,000 persons will visit it before the close of April 5 and that fully \$25,000 will be cleared. The trades unions, the working men's sick and death benefit societies and kindred organizations are working for its success. All sorts of entertainments have been arranged for and hundreds of donations valued into the thousands have been secured. The money realized is to form a fund for the general aid of the labor movement in Greater New York.

DIAMONDS GOING UP.

New York, Mar. 28.—Diamond imports are in receipt of cables from London that the selling syndicate of the De Beers Mining Co. controlling the South African output, which is said to be 90 per cent of the diamonds of the world, has made another advance of five per cent on all grades of goods. The price will go up to \$1,100 a carat for the first quality stones.

EXONERATED

Father for Killing the Betrayer of His Daughter.

London, Mar. 28.—W. O. Shoppe, the wealthy trader who killed T. B. Sarnon, his former partner for betraying Sarnon's daughter, and who has been exonerated by the jury.

AUDITORIUM

For Use for Dances and Conventions

Will be Made Out of the Electric Light Building.

It Will be Arranged to Seat About Eight Hundred and Fifty People and Will Soon be Ready for Business.

J. O. Ohler has completed his plans for the transformation of the old electric light plant into a public hall to supply in a measure, what was lost to Lima when music hall was torn away. The big brick building which formerly contained the machinery for the electric light plant has one room 36 x 100 feet, with a 20 foot ceiling. A fourteen foot hallway connects this with Elizabeth street, which will form the principal entrance into the auditorium, there will also be a carriage entrance into the alley. A gallery will be constructed along both the north and south sides, while on the east side there will be built a stage. It is the intention to use the new auditorium for dances, conventions and the other public meetings for which music hall has heretofore been used. It will have a seating capacity of about 800 people.

Chicago Stock Market. Chicago, March 28.—Cattle 300 steady; hogs 9,000, active, 8c higher, sheep 4,000, weak to 10c lower.

GENERAL WOOD SAILED TODAY.

GETTING TOO CLOSE.

Washington, D. C., March 28.—The most notable astronomical event of the year is the opposition of Mars, which occurs tonight. On April 1st the distance of Mars will be a minimum, being then 59,000,000 miles. The opposition is so circumstantial, however, that astronomers will have some favorable conditions for studying Marsian problems. The northern polar cap will be visible, and doubtless many observations will be made of it by numerous observers. The satellites of Mars, discovered by Prof. Hall at the naval observatory probably will be beyond the reach of that telescope in the present position of the planet but they may be visible to the more powerful telescopes of the Lick Observatory. Many problems are now studied by astronomers with large telescopes of which the measurement of satellites is one. Other lines of study relate to the diameter of the planet by night and by daylight and drawings of the numerous markings noted upon the surface of the planet.

Live Stock Market. East Liberty, Mar. 28.—Cattle fair unchanged sheep unchanged, hogs 5 double decks market shade higher on best weights other grades steady.

BODIES

Of the Drowned Men Not Yet Found.

Explosion of Nitro-glycerine May be Tried.

One of the Missing Men was a Brother of Mrs. W. H. Andrews, of South McDonald Street, This City.

Information from Chicago today announces that the bodies of John Stutter and Mr. Cavitt, the two sports men who are thought to have been drowned during a storm on the St. Marys river last Monday night have not been recovered.

As has been previously stated the men were out duck hunting and as they failed to return to their homes in Indiana Monday night searching parties started out Tuesday and found evidences of the fate that had overtaken the hunters. Their shot guns were found on a stump where they had evidently placed them in anticipation of the overturning of their boat and at quite a distance from this stump their overturned boat was found with one oar. Since Tuesday men with various kinds of boats and grappling hooks, have been conducting a systematic dragging of the reservoir but no evidence of the location of the bodies has yet been found. Monday, an effort will be made to raise the bodies by the explosion of a quantity of nitro glycerine.

John Stutter, one of the drowned men, was a brother of Mrs. W. H. Andrews, of 307 south McDonel street, this city. He was 20 years of age. Two months ago, Mrs. Andrews' mother died and another brother was killed in the massacre that befel company C of the Nineteenth U S infantry on the island of Samar, in the Philippines.

TO AVOID TROUBLE.

Lowell, Mass., March 28.—It has been decided by the mills that are affected by the decision of the textile unions to strike Monday, that they will not open for work Monday morning. This decision was reached at a conference by the mill men this morning. Agents say that this is not a lockout, but merely a move to avoid anything like a clash with the strikers.

STANDARD BRAND TOMATOES THREE CANS FOR 25c AT PIPER'S GROCERY.

Former Military Governor of Cuba Leaves on an Important Mission.

Various Methods of British Colonial Government Will be Studied With the Improvement of Conditions in the Philippine Islands.

Boston, Mar. 28.—Brig. Gen. Leonard A. Wood, formerly military governor of Cuba, sailed today from Boston on the steamer Commonwealth for Gibraltar en route to the Philippines. Stops will be made en route at Cairo, Bombay, Calcutta, Singapore and the Malay Straits Settlements. Arriving at Manila, General Wood will take command of the department of Mindanao until he is advanced to the command of the division of the Philippines. There is talk of his being made civil governor of the Philippines to succeed Governor Taft.

Stopping at Cairo on his way to Manila General Wood will spend some time investigating the form of government of that country. In Egypt the form of colonial government consists of a British resident president who governs the people through their native khedive who really is a sovereign in name only. The same system is in effect being employed in Mindanao now. In India General Wood will consult Lord Curzon, the viceroy, concerning the forms of government of King Edward's great eastern dependency.

A FUMIGATOR DID THE WORK.

Six Armed Men from Kentucky Resist the Arrest of a Comrade

Until a Cloud of Formaldehyde Smoke was Sent Into the Barricaded Room, When the Door was Soon Opened.

Lexington, Ky., March 25.—Six men (rest Deaton and the men refused the officers admittance. Armed with large revolvers they threatened to kill the officers if they entered. A fumigator burning formaldehyde was placed under the door and turned on. The door was quickly opened and the men arrested.

AMERICANS MUTILATED

Horrible Torture Inflicted Upon Gold Prospectors by Hostile Moro Savages.

Washington, March 28.—Prospecting for gold in the mountains of the Philippines is not encouraged by the Filipinos. The war department today relates the death in awful manner of John Frucha and Ed Chase, two Americans who sought for the yellow metal at Zamboanga and found only hostile Moros. A party of Americans, which went to investigate their prolonged absence, found the prospectors, but surrounded by scattered human remains, while on the inside a head dangling by a string on the wall. It was identified as that of Chase. Later Frucha's body was found in another place, horribly mutilated.

CHINESE LABOR May be Brought into Service in the Transvaal.

London, March 28.—Commissioners

Noyes and Skinner, who have been appointed to proceed to China to investigate Chinese labor with the view of its employment in the mines at Johannesburg, Transvaal, sailed today for New York. In California the commissioners will spend several weeks inquiring into the methods of employing the Chinese in that state.

CHILD

Run Down by Bicycleist

In South Lima

Daughter of Mr. Juinlin Painfully Hurt.

Jacob Miller Who Has Been Gaining Notoriety at Cleveland is Home.

Mrs. C. B. Young, an Officer in the Lodge of Foresters is Tendered a Farewell by Members of the Order.

Margaret, the young daughter of Mr. and Mrs. Juinlin, of east Kibby street, was run down and painfully injured by a reckless bicyclist, who was going upon the sidewalk near the child's home. When he observed the girl was hurt, he rode swiftly away.

Coming Home. Jacob Miller, who has been making himself conspicuous at Cleveland for some time past, will return home this afternoon, his father having sent him money with which to purchase a ticket.

Farewell Reception. Upon the eve of her departure for Marion, Ind., where she goes to join her husband, who is employed there, Mrs. C. B. Young, of St. Johns avenue, was pleasantly remembered by the members of Court Thelma, of the order of Foresters, in which lodge she is vice chief ranger.

Jacob Miller Again. Jacob Miller, an incorrigible 14 year old boy whose father resides on south Elizabeth street, has again broken up the peace of the neighborhood. Early this winter, the boy ran away from his home in this city, and worked upon the sympathies of patrolman May, of the Cleveland police force to such an extent that that gentleman took him to his home, where he remained until he located some of his relatives, to whom he has recently been returning.

Thursday, young Miller again appeared at police headquarters in an attempt to relate an awful tale of his struggles with an unsympathetic world. His little tale of woe, which led to his being again receiving the reward of a "little hero," which light he is considered by his benefactor, Patrolman Neff, an officer at Cleveland, who is for the present liquidating all of Jacob's tale.

Watch. See my ad in Tuesday's paper announcing my opponent.

Challenge Accepted. Some time ago Anthony Altenbach, of south Main street, issued a challenge to a checker for a series of games. The challenge, but in its Friday issue, the Hi-Country Review of Crickets, announces that if Mr. Altenbach desires, his challenge will be accepted by players in that place. As Mr. Altenbach is a checker enthusiast, willing to meet all comers, a match may be arranged for the near future.

Personal Items. Mrs. Damm has removed from this city to Cridersville, where she will make her future home.

Edward Glick, and family, of Jackson Center, have removed to this city for future residence.

Mrs. C. M. Melhorn and son Donald, of Kenton, will be the guests of Lima friends for the next few days. Albert Ackerman, of Kenton, and Frederick Hallinger, of Toledo, will reside at McConnell's hall in Alger, next Thursday evening.

John Garlinger formerly of this city.

has been nominated by the Democrats of Mt. Cory for mayor of that village. Mr. and Mrs. E. L. Kraft, Jr., of east Kibby street, went to Springfield this afternoon on account of the precarious illness of Mrs. Kraft's father.

Mrs. Catherine Sowers, of Oil City, Pa., is the guest of Mrs. W. R. Conner, of Second street. Bruce Crumrine, who has been residing with relatives on south Main street, has been pronounced not of sound mind and will be taken to a hospital at Toledo for treatment.

Glenn Reece, who has been attending college at Germantown, returned home yesterday being compelled to discontinue his studies on account of illness.

John Martin, who has been employed in the oil fields near Somerset, Ky., is the guest of relatives on Greenlawn avenue.

Misses Minnie and Belle Bloxham, teachers in the Lima public schools, will spend their vacation at the parental home in Alger.

M. B. Boyer, of Toledo, is visiting his mother, Mrs. Lida Boyer, of west Vine street.

Quarterly meeting and preaching by Rev. W. A. Ballinger. Communion services Wednesday evening. No services tomorrow on account of union mission services. Day meeting in the United Brethren church at 9:30. Rev. Davis, pastor.

Beware of Ointments for Catarrh that Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians. As the danger they will do is too great to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by E. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and is made in Toledo, Ohio, by E. J. Cheney & Co. Testimonials free. Sold by druggists, price 75c per bottle. Hall's Family Cure is the best.

First Congregational Church. South Elizabeth near Market street. Rev. J. J. Swanson, pastor. The pastor will conduct worship and preach at 10 a. m. Bible school at 11:15. The pastor would like to meet all who come out on the Lord's side last Sunday morning. Junior Endeavor at 2 Senior Endeavor at 6. Subject "South Africa." Mrs. L. J. Swanson, leader. The congregation will join in the union service at 7:30 in Trinity M. E. church, led by Major Cole. All seats free. The public cordially invited.

CABINET

Meet of Epworth League at Delphos.

A meeting of the Epworth League of Lima district was held yesterday afternoon at the M. E. church in Delphos. The visitors were taken to the Hotel House for dinner and at one o'clock they assembled at the church. The meeting was for the purpose of arranging a program for the convention to be held in Lima in June. The members of the cabinet who were present at the meeting were: C. M. Woods, Gene Lockwood, Anna Welch, of Delphos; Cynthia Newcomer, Colonel Rex J. M. Mills and W. J. Hagerman, of Lima and Roy J. B. Ascham.

Would You Banish Dangerous Spring Headache?

Try Nature's Cure, Paine's Celery Compound

And You Will Quickly Rejoice in a New Life.

While headaches are varied in character and are produced by a variety of causes, the majority of victims suffer either from nervous or bilious headache. When neglected, either form will quickly cause serious suffering and will assuredly prostrate the system. Nervous headaches, to which women are especially subject, arise from weak and inflamed nerves, heavy and dull brain, poor circulation and debility. Bilious headaches are usually accompanied by sickness and vomiting.

MRS. BENJ. PERRY. North Aurelius, Mich.—A Life Saved When Doctors had Given Her Up.

They result from inactive liver, digestive disturbances of some kind and constipated bowels.

In the springtime, able and experienced physicians urge upon those who are subject to headaches the use of Paine's Celery Compound. In tens of thousands of cases this wonderful remedy has produced happy and permanent results after all other modes of treatment failed. Unlike other medicines claiming popular attention, Paine's Celery Compound gives prompt and effective results. It gives to weak and sick people an immediate supply of nerve force, with pure blood, active liver and perfect digestive vigor.

The work of Paine's Celery Compound is not a simple business of thinning, it effectively reaches the root and causes of disease and permanently banishes the trouble. Mrs. Benj. Perry, of North Aurelius, Mich., says: "After trying in vain several remedies for headache, I began using Paine's Celery Compound. This great medicine not only cured me, but it built up my system and made me feel like a new woman. It is the only medicine we keep in the house."

Mrs. Benjamin Perry of North Aurelius, Mich., says: "Paine's Celery Compound is the best medicine on earth. Three years ago I was taken with inflammation of the bladder and nervous prostration, and was very sick under the doctor's care, and they all thought I could not live. "I was so sick I could not help myself, and barely sat up long enough to have my bed made, but I heard of Paine's Celery Compound and commenced taking it, and I can say today that it has helped me so much that I am doing my own work, something I never expected to do. I do not think I would be alive today if it had not been for the use of Paine's Celery Compound."

Well! Again. The many friends of John Blount will be pleased to learn that he has entirely recovered from his attack of rheumatism. Chamberlain's Pain Balm cured him after the best doctors in the town (Monon, Ind.) had failed to give relief. The prompt relief from pain which this liniment affords is alone worth many times its cost. For sale by Wm. M. Melville, old post office corner.

In the World of Fashion.

New York, March 28.—Tan in all the fabrics of light weight enjoys unprecedented favor this season. It is by no means the leading shade, for first place is unanimously awarded to grey, but it affords an effective change in the fashionable wardrobe which demands variety almost above everything else.

The popular tendency is still bent toward color combinations, but exclusive modistes are quietly asserting the greater elegance of single color effects. Whatever difference there is in the tone of a smart frock is obtained by a trimming in a lighter or darker shade of the same color, but a distinctly varying tone is not eregled.

A very dressy afternoon gown in tan silk voile has the skirt laid in transverse tucks running from the hem up to the waistline. The tucks do not cross the front breadth which is perfectly plain except for three shirings below the belt. The bodice has a vest of chiffon which broadens above the bust to extend in one piece with the collar and shoulder seams. Bordered the vest are embroidered bands of tan taffeta. The sleeves are shirred at the top several rows deep while the fullness below the elbow is gathered into a wristband of embroidery.

Renaissance brand dyed a soft café au lait shade constitutes another charming toilette. The elegant ensemble is gained by the richness of the brain, for there is little trimming besides. The skirt which has a very sweeping train is made over a chiffon petticoat, which in turn has a foundation of heavy taffeta. The chiffon petticoat is finished with a flounce of the same material closely plaited and edged with a tiny lace ruching. What would be seams if the overdress were not made in one piece are marked with stripes of café au lait taffeta embroidered in French knots.

The bodice fits perfectly and is trimmed simple with graduated frills of plaited chiffon which fall in cascades over the vest, but are scarcely more than three inches wide at the armholes. The sleeves are elbow length and finished with deep frills of chiffon and lace that fall to the finger tips at points where they are left unconfined. The tan shades in satin faced cloths are irresistibly alluring. A stunning design in ladies' cloth is much decorated with palest fawn silk, overlaid with narrow silver brand embroidery. The skirt has a multitude of plaits upon it that fall from a gauged hip yoke, clasped and flattered by embroidery.

The bodice is given a deep yoke with elegant tabs and is gathered into a belt of cloth banded with rows of silver brand set close together.

Accompanying the gown is a stole of fawn colored chiffon gauged at intervals and delicately embroidered with silver silk at the ends. Foulard silks in tan and grey delicately patterned with small flowers and large designs in blue, black, white and olive green are employed for very effective morning and afternoon toilets. They are swathed in the newest trimmings in which money melts so rapidly away out of the most plethoric purse. The decoration selected for a bewitching Easter gown which is all finished and reposing beneath its folds of tissue is an exquisite flowered embroidery. The bodice has the embroidery almost covering the whole front, from which it is plaited back, forming a full broad front. The back is formed in tucks and fits closely, the front being very full and loose over a delightful Japanese flange silver girdle.

The sleeves are tucked to the elbow and fall very full to deep cuffs of the flowered embroidery. The skirt has the embroidery design all over the front seam, sloping outward from the top, from which come five tiny tucks at either side, the rest being just over the hips and sloping from the long ones. Around the bottom is a circular flounce, headed by tucks and with tucks around the bottom. This falls very long and full over the feet and sweeps the floor in the back.

White has been so popular all winter that it can scarcely be classed among the spring novelties. Yet there is nothing more effective. The oyster, pearl and milk tints though especially charming, are unfortunately, quite expensive. It is difficult to get a desirable shade under four dollars a yard. But then the materials are wide and a comparatively few yards will make a gown. In fact when it is possible to gain such exquisite effects with taffeta and satin trimmings, one might verily piece out a scanty allowance of goods in the name of decoration.

A certain young debutant whose wedding to one of New York's—of the world's, for that matter—most famous millionaires is wearing a stunning oyster white broadcloth costume with a gathered coat. The skirt is braided six inches from the hem in ornate design to a width of perhaps eight inches.

The coat also shows the same braiding. There are no seams in the coat back, which is cut in the French fashion and the slight fullness left is shirred in the centre at the waistline. The long straight skirts—that is dress skirt and drop lining—are also gathered in at the waist in the centre and a plain white cloth band forms the belt. The sleeves widen until at the wrists they are quite broad and have very wide and flaring turnback cuffs heavily braided. The collar and revers are also braided.

Completing the costume is a broad brimmed white hat with slightly lifted brim and a huge white ostrich feather trails over the left side and down the back. Under the coat is worn a blouse of white silk covered with very heavy white lace, almost like guipure cloth. The sleeves have exaggerated drooping wings above the wrists that fall far below the hands and show between the open flaring portions of the cuffs.

Spring fashions are pretty well decided upon now and many of the grotesque effects noticed among the first output of novelties have disappeared. The trimmings of various kinds that remain, though unique have the merit of beauty and originality and one does not hesitate before selecting them. The most beautiful sherry ribbons are shown in the shops for sashes. They are from four to fifteen inches wide and so soft that it is possible to twist them in almost unconceivable designs without producing a bulky effect. The color combinations shown in dresses earlier in the season seems to have shifted to the province of sashes with the result that the color schemes are delightful. Pale cowslip yellow, with corn-flower blue and pinkish-hellotrope is both aristocratic and artistic, while old, cream, pale olive green and milk white constitutes another effective combination. Crash ribbons with color edge borders are new and sell at fifty cents and upward a yard.

MAUD GRIFFIN.

SEVERE ATTACK OF GRIP

Cured by One Bottle of Chamberlain's Cough Remedy.

"When I had an attack of the grip last winter (the second one) I actually cured my self with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry, Editor of the Enterprise, Shortsville, N. Y. "This is the honest truth. I at times kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night, I would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it very mildly. I had no idea that it would or could knock out the grip, simply because I had never tried it for such a purpose, but it did, and it seemed with the second attack of coughing the remedy caused it to not only be of less duration, but the pains were far less severe, and I had not used the contents of one bottle before Mr. Grip had bid me adieu."

Ivan Green says: "I was paralyzed on my right side; could not walk, had no use of my limbs, could not move my hands to my head. I treated with Dr. Townsend for years ago and he cured me, thank God, and I have worked for four years and am perfectly well."

Mrs. E. Pifer: "I had consumption, asthma and catarrh in my head. Could not breathe without coughing. Asthma so bad I had to sit up in bed to get my breath. Heart palpitation on the least exertion. I feel Dr. Townsend has cured me—a new lease of life."

Mr. J. R. Right: "I suffered with scrofula and skin diseases covering my body. Eyes sore and weak, could not see. Stomach sour and bloated and full of gas. Life was not worth living. Nothing could stay on my stomach, no appetite. I consulted Dr. Townsend and feel grateful to him for curing me so I can work and take care of my family."

I could not hear in my left ear and nearly deaf in my right. Constant roaring in head and ringing in ears. Catarrh in head and nose and ear discharge. Eyes weak. Pain in head and lungs. I took the "Russian Gases and Dry Air" treatment of Dr. Townsend and can hear as well as ever I could.—W. C. Green.

"I was troubled with female weakness, bearing down pains, nervous pain in my knees, arms and shoulders so I could not sleep. Limbs swollen, could not walk. I treated with doctors, but no benefit. I am thankful to say Dr. Townsend cured me. I recommend him to all."—Mrs. D. R. Smith.

Mr. J. D. Ludwig: "I had rheumatism, piles and neuralgia with sciatica so I could not work. I doctored with specialists and received no benefit until I called on Dr. Townsend. He has cured me and I am happy and advise all to see Dr. Townsend."

Lima never had a municipal ticket
which contained the names of better
men than those which the Democracy
present for suffrages of the people on
the 6th of April.

The newly created board of public
affairs demands good sensible busi-
ness men as its members. That is just
the sort the Democracy have placed
in nomination for that important posi-
tion.

The scandals committed in the
Cuban postal department are about to
be hidden in obscurity by new de-
velopments in the United States post-
office department if rumors that are
hinted at are true.

Mayor Rogers has been incumbent
of that position for one year, and yet
the Republican party organ in this
city can find no argument to urge in
favor of his re-election, excepting that
he has been in office for one year. In
twelve months a man ought to make
a record which can be pointed at. In
this regard Mayor Rogers has not been
derelict. He has made a record, but
it is of the unsavory sort, the kind
which his friends are ashamed of and

his political opponents delight to call
attention to.

There are now 5,400 towns and cities
in Tennessee and of this number, the
saloon has been suppressed in 1,450,
or in more than four-fifths. The
strong point of Tennessee's liquor law
is the "four-mile law," which is not
commonly understood outside of the
state. This law originated in the
seventies, and has been strengthened
and improved from time to time. Un-
der its provisions, the saloon was pro-
hibited within four miles of incorporat-
ed institutions of learning, outside of
municipalities. Then the people be-
gan incorporating country schools
everywhere, making them prohibitory
centers. They thus became the pro-
tectors as well as the educators of so-
ciety. Next the saloons were prohibi-
ted within four miles of any school,
whether incorporated or not. The re-
sult is seen above.

AN IMPORTANT ELECTION.

As many people are aware the elec-
tion upon the 6th of April involves
more than any spring election ever
held in the municipalities of Ohio.
The election of the mayor at this time
gives that dignitary more authority
than he ever possessed in this State.
He will be much more than a mere
figurehead as will be seen from the fol-
lowing extracts from the code:

Sec. 147. * * The mayor shall be
chief conservator of the peace with-
in the limits of the corporation. * *

Sec. 148. The chief of police shall
be the executive head of the depart-
ment, under the direction of the
mayor.

Sec. 150. The chief of the fire de-
partment shall be the executive head
of the department under the direction
of the mayor.

Sec. 152. Par. 3. The mayor shall
have exclusive right to suspend the
chief of the police department or the
chief of the fire department. * *

A vote against Judge Robb is a vote
to invite chaos in our city government.
In view of this, no Democrat can afford
to make any mistake in this matter.
The election of Judge Robb means a
clean administration, such as the
citizens of Lima want and have needed
for years.

GILLETTE
UNRULY.

Columbus, March 28.—The first
seriously threatened break in the
Hanna slate determined upon at the
Cleveland conference, when Myron T.
Herrick was selected as the anointed
of the Hanna leaders, has come from
an unexpected quarter. It is found in
the suddenly announced candidacy of
M. M. Gillette of Newark, for the Re-
publican nomination for auditor of
state in opposition to W. D. Guilbert,
who is a candidate for a third term.
Colonel Gillette is a prosperous busi-
ness man of Newark and a member
of Governor Nash's staff. The latter
fact is a sad blow to the state admini-
stration, which is tied to Gilbert and
regards the Gillette movement as lit-
tle less than rank treachery.

Auditor Guilbert announced his can-
didacy several months ago after he
had visited Washington and conferred
with Senator Hanna and Foraker. He
then claimed to have the endorsement
of both senators. He is in the field
several months ahead of Colonel Gil-
lette, but the latter's friends say that

this will make no difference in the
final result of the contest between
the two men.

To the people of Ohio who believe
in home rule and detest bossism—
Republicans as well as Democrats—
there is perhaps no man more obnox-
ious than W. D. Guilbert. He operates
in a quiet way and usually succeeds
in attracting no attention to himself,
but, like the pestiferous insect in the
song, he "gets there just the same."
Auditor Guilbert was far more respon-
sible for the Cox code than most per-
sons were aware of. He was a past
master in the art of eliminating the
principle of home rule from that in-
strument and there was not an objec-
tionable feature in the entire code
that did not bear his ear mark. While
holding a state office he was in fact a
lobbyist before both branches of the
legislature and at the same time
transacted most of the doubtful politi-
cal business of the governor's office.
Following this record he had the su-
preme nerve to come out for third
term notwithstanding the prejudice
against such ambition. He was put
on the Hanna slate at the Cleveland
conference and until within a very
few days it was supposed would have
clear sailing.

Colonel Gillette represents a differ-
ent element of the Republican party.
It is said that he has been very busy
of late and has not entered the race
without having obtained assurances
of support from many valuable sources.
A significant thing about his
candidacy, however, is that it implies
an unexpected defiance of Boss Han-
na's dictum as laid down at the Cleve-
land conference with regard to the
entire Republican state ticket. If the
practice of shooting holes in the
Hanna slate becomes epidemic Col.
Herrick will have to hump himself in
order to keep in the gubernatorial pro-
cession. It is hardly conceivable that
any Republican who is bent on break-
ing the slate in one spot will not do
it in another. The Gillette candidacy
may be therefore taken as an indica-
tion that the entire slate is in danger.
This is, in fact, the true aspect of the
situation and is the most important
development of the week in Ohio poli-
tics from a Republican standpoint.

Political Economists.
While great fortunes and great in-
dustries have almost invariably been
created by uneducated men, persons
unimpaired with learning, who
taught themselves what they found
necessary to know, we find, on the other
hand, that those men who have made
commercial success, political economy,
their study have not shown any suc-
cess in business and have remained
theorists. Most political economists
have had to live on their pen. Mr. Cob-
den went bankrupt in business. It is
true that Ricardo was well off, but he
was a stockbroker by trade, and with
him political economy was only a hob-
by, not a serious result. It is strange
how few business men of the first rank
have a good word to say of political
economy.—Nineteenth Century.

Pocketing a Fee.
For a whole year the famous English
physician, Dr. Haddcliffe, attended a
friend without a single fee passing be-
tween them. As he was leaving after
his last visit the patient said, "Here,
doctor, is a purse in which I have put
every day's fee. You must not let
your kindness get the better of my
gratitude; so please take it." The gen-
erous physician put out his hand to re-
ject the purse, but the chink of the gold
was too much for his amiable resolu-
tion, so he put it in his pocket, saying,
"Singly, sir, I could have refused them
forever, but all together I am afraid
they are irresistible."

The Roman Aqueducts.
The Roman aqueducts were marvels
of architecture. The Alto was forty-
three miles long; the Marcio forty-one,
of which thirty-eight were on 7,000 ar-
cades seventy feet high; the Claudia
was forty-seven miles long; the arches
100 feet high. The Roman aqueducts
brought 40,000,000 cubic feet of water
daily into the city, and the various sec-
tions of the metropolis were supplied
with water by 13,504 pipes.

Helping Him Along.
"Then there is such a thing as heart
failure, is there, doctor?" said the
handsome young widow.
"Certainly, madam," responded the
bashful young physician. "The re-
cords of the profession are full of—"
"It's a perfectly unnecessary disease,
isn't it, doctor?"
On this hint he spoke.—Chicago Trib-
une.

Deeper Meaning.
"I went to the church fair last night,
and I think I see a new meaning in
that old adage now."
"What's that?"
"It's my idea that none but the brave
have any business there."—Philadel-
phia Press.

A Poser.
Little Dorothy Benson was usually a
very truthful child. When she was
not truthful, she was plausible.

Coming in from her walk one morn-
ing, she informed her mother that she
had seen a lion in the park.
No amount of persuasion or reason-
ing wavered her statement one hair's
breadth, so at night, when she slipped
down beside her knee, her mother said,
"Ask God to forgive you for that fib,
Dorothy."

Dorothy hid her face for a minute,
then she looked straight into her mother's
eyes, with her own shining like
stars, and said, "I did ask him, mum-
my, dearest, and he said, 'Don't men-
tion it, Miss Perkins. That big dog
has often fooled me.'" New York Her-
ald.

English Manners.
An English housekeeper was found in
bed one morning with his throat badly
cut. "Why did you do it?" they asked.
He replied: "For amusement. I had
nothing else to do."
This chimed in curiously with an old
French epigram on English manners
and customs.

A Mystery.
A very small boy was watching his
mother sew whalebones in her dress.
"What are they, ma?" he asked.
"Lones," she replied.
"Whose?" continued the little fellow.
"Mine," she answered.
He regarded her a minute in amaze-
ment and then asked solemnly, "How
did you get 'em out?"

His Shady Observation.

many Mrs. Browns about.

you say that?"

ATTACK OF HEART DISEASE

**Causes Death's Hand to Fall Suddenly
Upon Lawrence O'Neil.**

**Had Gone to Grant Stephen's Restaurant to
Open the Place and Fell Dead in the
Doorway.—Funeral Tuesday.**

Lawrence O'Neil, more familiarly known among his friends as "Doc" on account of being the seventh son in the well known family to which he belonged, was found dead in the entrance to Grant Stevens restaurant at the northeast corner of Main and Spring street this morning about 5 o'clock. The startling discovery of his sudden and untimely demise was made by Mr. Stevens, to whom the deceased had been employed for some time. Mr. O'Neil had gone to the restaurant for the purpose of opening it up for the day's business and was followed about half an hour later by Mr. Stevens, who found him in the doorway, where he had evidently fallen before he could open the door, and apparently death had occurred instantly. The remains were taken to Eckert & Son's morgue and coroner line, who was promptly notified arranged for the holding of a post mortem examination over the body late this afternoon to determine the cause of death. The deceased was 34 years of age, and had always enjoyed excellent health, and although employed in a restaurant and saloon, he had not been indulging in the use of liquor. He worked until 11 o'clock last night and then went home with Mr. Stevens and evidently rested very well during the night. He awakened about 4 o'clock this morning and called Mr. Stevens, but the latter did not get up immediately, and O'Neil started to open up the place of business in his stead. It is very probable that an attack of heart trouble was the cause of his very sudden death.

USEFUL

**Life was Terminated
by Death**

**When Mrs. Catherine Wolf
Passed to Rest.**

**Deceased was Born in Germany and
Lived to the Age of Seventy-
eight Years.—Funeral to
Occur Monday.**

Mrs. Catherine Wolf, mother of Mrs. Henry Wolf, who passed away at her home 109 west North street at one o'clock yesterday morning, was born at Kessendarmstadt, Germany, on January 28, 1825. She was the daughter of Mr. and Mrs. Carl Mueller. On the 23rd day of January, 1848, she was united in marriage with John Bernard Wolf, of which union thirteen children were born, seven daughters and six sons, none of whom survive the mother. Mr. and Mrs. Wolf and three of the children came to this country in the year 1853, having been preceded by seven of the children.

Mrs. Wolf passed away in 1888, since which time the deceased made her home with her daughter, Mrs. Delsel. About two years since she suffered two strokes of paralysis, one following close upon the other, since which time she has been an invalid. The beginning of the fatal illness dates, however, from last Tuesday, and she gradually sank until at one o'clock on Friday morning, March 27, her spirit fled.

Two of the surviving children, Carl Wolf and Mrs. Babanau, are still residents of the mother country, the former residing at Heesendarmstadt, Germany. The other seven children are all residents of this country, as follows: Mrs. Delsel, at whose home she passed away; Mrs. Peter Weiler, of north Elizabeth street, and Mrs. Fred Snook, of west Wayne street, this city; Mrs. Henry Schreck, and Mrs. Lockett, of Allegheny City, Pa.; Mrs. Lockman, of Bradock, Pa. and Mr. J. Wolf, of Sharpsburg, Pa.

Fifty-four grandchildren and twenty-four great-grandchildren survive her, of whom there are fifteen grand children living and four dead in the old country, and thirty-nine living and nine dead in this country.

Deceased was a sister of the late William Miller, ex-sheriff of Allen county and father of Mr. Daniel R. Miller, the constable. She was also a sister of the late Jacob Miller, of near West Cairo, and Michael Miller, deceased, of Delphos; and of Mrs. Margaret Rummel, deceased, who lived near West Cairo. One sister, living at Koenig, in Hoesendarmstadt, Germany, is the sole survivor among her brothers and sisters.

Mrs. Wolf was a good, kind Christian woman. Early in life, she affiliated with the Protestant Lutheran church, of which she remained a consistent

and devout member to the end. She was a great Bible student, and until her infirmities prevented, spent much time with her Bible and prayer book. She was always a kind, intelligent mother and her devotion to her husband was unflinching.

Two of the daughters, Mrs. Henry Schreck, of Hoesendarmstadt, Pa., and Mrs. Delsel, of Bradock, Pa., arrived to pay a final visit to their mother, and their presence here at the hour of their last and truest friend.

The funeral, as announced yesterday, will take place at the German Reformed church on west Wayne street at two o'clock on Monday afternoon, conducted by the Rev. E. J. H. and the remains will be laid to rest in Woodlawn cemetery.

ONLY PARTLY TRUE.

Popular Ideas Regarding Catarrh.
It is the common belief that what is popularly known as catarrh is simply a "chance cold in the head." This is true as far as it goes, but as a matter of fact catarrh is by no means confined to the nasal passages, but extends wherever the mucous membrane extends, which means nearly every part of the body.

The mucous membrane is the inside skin of the body and is nearly as extensive as the outside skin, and any inflammation of this membrane causing an extra secretion of fluid is really catarrh.

Catarrh is, therefore, an old enemy disguised by many confusing names, for instance: Rhinitis is nasal catarrh; laryngitis and pharyngitis throat catarrh; gastritis, stomach catarrh; cystitis and nephritis, catarrh of the bladder and kidneys.

Therefore, although the location of the trouble gives it various names, in reality the sum total is catarrh and nothing else.

Do not make the mistake of thinking you have no catarrh because the head and nose appear to be clear. If there is a cough, tickling in the throat and hoarseness you have throat catarrh; if there is no appetite, bad nausea, gaging and disgust for food especially in the morning, you have catarrh of the stomach.

The surest treatment for every form of catarrh is an external remedy which acts especially on the blood and mucous membranes; such a remedy is the new preparation sold everywhere by druggists under the name of Stuart's Catarrh Tablets, a medicine in pleasant tablet form and containing all the best and latest specifics for catarrh.

Stuart's Catarrh Tablets contain a highly concentrated form, bloodroot, red gum of the Eucalyptus tree, and many others equally valuable curative elements, and no one who suffers from any form of catarrh and has seen the inefficiency of douches, sprays and powders will ever go back to them after once trying so pleasant a preparation as Stuart's Catarrh Tablets and one which gives so much relief in so short a time.

All druggists sell Stuart's Catarrh Tablets at 50 cts., for full sized pack and the regular, daily use of them will effectually cure this troublesome and dangerous disease.

ILLNESS

**Of Mrs. Geo. Kanawl is
Terminated.**

**End Came Peacefully at an
Early Hour Today.**

**Funeral Services Will be Conducted
by Rev. G. W. Anderson and
M. M. Figley Monday
Afternoon.**

The home of County Commissioner George D. Kanawl, north of this city on the West Cairo road was saddened this morning at 6:25 o'clock by the death of his wife, Mrs. Mary D. Kanawl who passed peacefully to rest after an illness of four months duration. Death was due to nervous prostration.

The deceased was aged 35 years, 11 months and 15 days and is survived by her devoted husband, three brothers, two sisters and her aged mother, Mrs. Christiana Murray. The brothers are D. E. Murray, of Montana, and L. D. and C. D. Murray, of this county, and the sisters are Mrs. Wm. Taylor, of west Kibby street, this city and Mrs. C. F. Mott, of Spokane, Wash.

Funeral services will be held at Trinity M. E. church at 2 o'clock Monday afternoon and will be conducted by the Rev. Anderson and Rev. M. Figley. The remains will be consigned to a final resting place in Woodlawn cemetery.

Mrs. Kanawl was a noble woman of many noble traits of character and the announcement of her death will be a severe shock to her hosts of friends in the city and county. The hand of sympathy is extended to her bereaved husband whose friends are legion.

WITNESS FOUND.

Denver, Colo., March 28.—The entire West has been secured by Justus Goebel for witnesses to the assassination of his brother, Governor Goebel, of Kentucky. The testimony of the witnesses is wanted for the second trial of the assassins, which is to come up in the Kentucky courts very soon. One of the most important of these witnesses has been located in Denver. He is F. W. Golden, of 2527 Welton street. Justus Goebel is now in Phoenix, Ariz., where it is thought some much-wanted witnesses will be found. Golden states that he witnessed the shooting of Governor Goebel and that he is willing to tell all he knows about the assassination.

"The Sheriff there has my address," he said, "and I am in Colorado for my health and will return here after the trial to remain."

A DISTINGUISHED PIANIST.

Mme. Elsa von Grave-Jonas, the pianist, who is to play with the Pittsburgh Orchestra, Victor Herbert, conductor, at the Spring Festival concert at Findlay on April 18th, is a protegee of the great Hans von Bulow, and as early as eighteen years of age was graduated with the highest possible distinction, from the Royal Conservatory at Munich. Her public career, both in Europe and the United States, has been a notably brilliant one. Her appearances with the Pittsburgh Orchestra are necessarily limited, and Findlay is fortunate in being one of the cities to hear this great artist under such favorable circumstances.

FREE MEDICAL ADVICE TO WOMEN.

All Correspondence Is Sacredly Confidential

This is a very important consideration in a woman's correspondence with Mrs. Pinkham. It is a great satisfaction to feel that one woman can write to another telling her the most private and confidential details about her illness, and know that her letter will be seen by a woman only, — a woman full of sympathy for her sick sisters, and with a knowledge of woman's ills greater than that possessed by any other person.

Mrs. Pinkham never violates the confidence thus entrusted to her, and although she publishes thousands of testimonials from women who have been benefited by her advice and medicine, never in all her experience has she published such a letter without the full consent, and often by special request of the writer.

The reason Mrs. Pinkham is so amply qualified to give advice in cases of female ills is for the reason that over one hundred thousand cases come before her each year, — some personally, others by mail, and this has been going on for twenty years, day after day, and day after day. Twenty years of constant success, — think of the knowledge thus gained. Surely, women are wise in seeking advice from a woman of such experience, especially when it is absolutely free.

As an illustration of the good coming from such advice we herewith publish two letters and portrait of Miss Hattie DeGroat, the reading of which should give every sick woman confidence in Mrs. Pinkham's ability to help them. This is only one of thousands of the same kind of letters which Mrs. Pinkham has on file.

DEAR MRS. PINKHAM: — I have read with interest, your advice to others so much that I thought I would write to you, for I have been suffering for a long time. I have such bearing-down pains, and such shooting pains go through me. I have headache, backache, and feel tired. Menstruation is very painful, sometimes have to stop work and lie down. My stomach bloats terribly, and I am troubled with whites. Hoping to hear from you soon, I remain,
 July 24th, 1903. MISS HATTIE DEGROAT, Successama, N. J.

DEAR MRS. PINKHAM: — I can hardly find words to thank you for your advice and wonderful Vegetable Compound. I was in a terrible state, every part of my body ached, was very nervous, had hysterical spells. I think I would have become insane had it not been for Lydia E. Pinkham's Vegetable Compound. Your letter told me just what to do, and your medicine cured me, and I cannot express my thanks.
 March 8th, 1901. MISS HATTIE DEGROAT, Successama, N. J.

No other medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles or such hosts of grateful friends. Do not be persuaded that any other medicine is just as good. Any dealer who suggests something else has no interest in your case. He is seeking a larger profit. Follow the record of this medicine, and remember that the thousands of cures of women whose letters are constantly printed in this paper were not brought about by "something else," but by Lydia E. Pinkham's Vegetable Compound.

The Buckeye field is awakening from a seeming period of lethargy, and appears to be moving with an activity which presages great improvement in the record of completions for the coming month. The rise in price of credit balances will be an added favorable feature, and with the present price there is little to be wished for in the way of incentive toward operations. However, the man on the look for production is almost necessarily compelled to turn his attention to the old developments, and it will be noticed that the latest efforts have nearly all been within the limits of some old but trustworthy pool. There is a little outside work, but in general results it cannot be compared with the tried article.

In Jackson township of Allen county, the National Oil & Gas company & Kerr have another good well on the E. A. Eiche farm, sections 5. It is No. 6 well on the farm, and had an output of 100 bbls the first 24 hours. Previous work on this farm has classed it as one of the best in that end of the field. In the same section, the United States Petroleum company completed No. 7 on the P. Sawyer farm, with an output of 60 bbls at the start.

In Richland township, the Empire State & Lima Oil company's No. 4 on the Joe Amstutz farm, section 29, made 40 bbls the first day by actual gauge. This company was, erroneously reported to have completed a well in Van Wert county a few weeks ago, but Manager Frank Breese states that the company has no holdings in that vicinity. It should have been the Empire State Oil company. The Ohio Oil Co. finished up No. 3 on the P. M. Neunshwander farm, section 23, Richland, and has a 45 barrel well, while the same company's No. 3 on the Gratz heirs farm, section 21, was good for 10 barrels.

Over in Spencer township, the W. V. Smith Co's No. 3, on the George A. Almsmiller farm, section 24, was a 65 barrel well, and Cheuvront & Stranna had a 45 barrel well in their No. 4, on the J. J. Roberts farm, in section 3. The Surplus Oil Co. and others have a 50 barrel well in their No. 3, on the James Montfort farm, in section 23, of Amanda township. In Marion township, E. Stoiffer & Co. drilled in No. 1, on the sabel Ditts farm, section 8, and it proved to be a duster. This farm is in the northwestern corner of the township, and it is somewhat with out the range of previous operations along that line. The Ohio Oil Co. completed No. 3, on the J. P. Barnt farm, in section 11, Marion, with a 35 barrel well as the result.

The Gandy Petroleum Co's No. 3, on the P. Engle farm, in section 1, of Perry township, east of Lima, was a light well, making only 3 barrels the first 24 hours after shot.

In Orange township of Hancock

county, south of Bluffton, the Ada Oil Co has completed No. 1 on the Harmon Ewing farm, in section 21 and it will rank with the dusters. A little to the southwest, the Ohio Oil Co. has a well on the Isaac Charles farm, in section 29, which was a light producer, making about 12 barrels at the start.

In Cass township of the same county, David Dale & Co. finished up No. 5, on the B. Bailey farm, section 24, and it will be good for about 20 barrels.

New wells in Van Wert county are quite small, the best of the trio reported today being W. V. Smith & Co's No. 3, on the J. C. Morris farm, in section 2, York, which is credited with an initial output of 30 barrels. The Empire Oil & Refining Co's No. 7, on Rebecca Duprey farm, section 3, York, was a 15 barrel well. The Cuba Petroleum company has a 19 barrel well at No. 7, on the J. P. Morgan farm, in section 7, Jennings.

A good well is reported from Mercer county, where Emerson & Stoethelmer completed No. 2, on the J. H. Tomlinson farm, section 3, Union township, with a 50 barrel producer as the result. In section 11, of the same township, the Brown Oil Co's No. 1, Mary Stroble, was good for about 10 barrels.

In Lucas county, Claus & Keister completed a 30 barrel well at No. 3, D. E. Ford, section 24, Oregon township, and in the same section, G. H. & L. C. Van Vleet have a 10 barrel well at No. 1, Fred Cummings. On the Nevada tract, the Piper Oil Co's No. 2, T. W. Taylor was also a 10 barrel well.

In Jackson township of Seneca county, A. Putnam & Co. completed No. 3, on the H. J. Mervin farm, section 6, and it will be a 25 barrel well. In Washington township, of Sandusky county, A. B. Hughes No. 4 on the Mary King farm, section 12, was a 25 barrel well.

Wood County Work.

Old Wood county, which has furnished more of the Buckeye production than its rightful share really calls for may always be found in the list of completions, and at this time seems to have a majority of the new wells under way. The roads in this territory are so very bad when they get bad that it is almost impossible to attempt work in the oil fields, but when operators get a chance to resume work they go at it with a vengeance.

One of the best wells in the field, according to indications at the start, was Brown & McCullough's No. 1, on the H. D. Coffinberry farm, in section 13, Liberty, near the village of McMills. It is credited with a production of 75 barrels naturally the first day. Westward, the Backus Oil Co. has a 30 barrel well at No. 3, on the L. W. Ward farm, section 20. The Ohio Oil Co. has three new wells in this township, No. 13, J. H. Klosson, section 25, making 40 barrels; No. 13, D. J. Cory, section 15, doing 18 and No. 4, E. Ducat, section 23, making 15 barrels.

New wells in Portage township are not of much account, some of them being very poor producers. North of Jerry City, C. A. Browning & Co. have a 10 barrel well at No. 6, on the C. C. Nestlerode farm, section 28; in section 30, J. W. Knight & Co's No. 19, D. Mercer is pumping salt water; Wm. T. Jebb's No. 19, Thos. Percy, same section, was good for 15 barrels; Kratzer & Osborne got no oil from their No. 2, S. Bloom, section 33, and W. C. Barron's No. 3, H. Canfield, section 35, is very light, being credited with about 4 barrels at the start.

The same condition of affairs prevails in Henry township, the best of three new wells being the Ohio Oil Co's No. 8, on the C. Dunn farm, in section 3, west of Eberly, which is credited with 40 barrels the first 24 hours. Near Cynnot, the Exchange Oil Co's No. 17, C. E. Palmer, section 12, was a 15 barrel well, and the Dollar Savings Bank & Co. got a 4 barrel well at No. 2, J. W. Sterling, section 21.

There was Consumption in the Family and She Seemed to Have Inherited a Tendency to It.

My mother died of consumption five years ago," said Miss Johannah Goodwin, of Northbridge, Mass., "and I thought I was going into the same disease. I believe I would have done so but for Dr. Williams' Pink Pills for Pale People."

"My complexion had turned pale and yellow and I was ghastly looking. I was so weak I could not dress myself without sitting down to rest a few times and often when I walked a short distance, or even stooped over, pains shot through my back. I was short of breath and often dizzy. My food did not digest properly and my heart was very irregular. There was a noise in my head that nearly drove me crazy. I would hold my hands tight over my ears but still it would not stop and sometimes I could hardly see. I grew thinner and weaker and was afraid and nearly certain I was going to die."

"One day a friend advised me to try Dr. Williams' Pink Pills and I did so. They helped me before one box was used up and in less than two months I was well and strong again, entirely cured."

The disease from which Miss Goodwin suffered was anemia or "bloodlessness" and is caused by an actual deficiency of the blood and a watery and depraved state of that fluid. It is characterized by a pallid complexion, pale lips, dull eyes, tongue and gums bloodless, shortness of breath on slight exertions—especially upon going upstairs; palpitation of the heart; feeling of impending death; weakness, loss of appetite and ambition. If left to itself it is apt to result in decline and death.

The one remedy that has proved itself a specific for this disease is Dr. Williams' Pink Pills for Pale People. These pills will never fail to effect a cure if used persistently for a reasonable length of time. At all druggists or sent, postpaid, on receipt of price, fifty cents per box; six boxes for two dollars and a half. Address the Dr. Williams Medicine Co., Schenectady, N. Y.

Canvass of Lima Will be Made by the Churches.

Services Held by the Revivalists Yesterday and Last Evening Did Great Good.

Many pronounced the service held at the Market street Presbyterian church at 9:30 Friday morning, the best service held thus far. It was a deeply spiritual service, and an earnest spirit of consecration prevailed. Prof. Lull and Lowe and Mrs. Lowe, being present, the music was fine. Major Cole talked on consecration and told a number of incidents coming under his own observation. One woman related how she had been praying for the conversion of her son. She had gone to work for the conversion of other boys and that morning received a letter from her son away from home telling of his conversion.

At the close of the service it was announced that the ministers association had decided on a canvass of Lima next week, and 300 representatives of the different churches would be called upon to make the systematic canvass. More formal announcement will be made next Sunday from the different churches.

The noon-day service was at the Erie carpenter shops yesterday, where Major Cole addressed 250 men and Prof. Lull and Lowe sang, much to the delight of the men. Major Cole made a talk and an earnest appeal, and ten of the men lifted their hands desiring prayers in their behalf. It has been decided to hold the meeting for men at the Market street Presbyterian church at 3:30 on Sunday.

The morning meetings at 9:30 a. m. will be held in the United Brethren church next week at the corner of east spring and south Central avenue.

The Trinity church was filled at the meeting last night. Prof. Weeden was present and assisted in the song service. He and Prof. Lull sang "I Surrender All." Later on Prof. Weeden sang a solo, "Will There Be Any Stars in My Crown?" After some choruses singing and prayers, Prof. and Mrs. Lowe sang "Jesus is Mine." The music was especially fine last night.

Major Cole talked on the "Prophecies of the Messiah." After a talk and an earnest appeal, he turned to the ministers on the platform and said: "Brethren, if this were your last opportunity to say a few words to this congregation, what would you say? Twelve of the ministers gave in a few words of earnest appeal. In the meeting which followed, the ministers and quite a number of others engaged in personal work and several were led to accept and confess Christ."

St. Paul's Lutheran Church.

Corner North and Elizabeth streets. Rev. F. P. Bossart, pastor. Services at 10:15 a. m. and 7 p. m. Morning: "What will the Judge Say?" Evening: "The Preparatory Service." Sunday school 9 a. m. Luther league at 6:15 p. m. Council Monday at 7:30 p. m. Lenten services at 7:30 Wednesday. Ladies Aid Thursday after service, 7:30 St. Johns avenue at 2 p. m. The seats are free and all are welcome.

Calvary Reformed Church.

High and Park avenue, Sunday school 9:15; Christian endeavor 6 p. m. No evening service. We join the union services at Trinity. A special message to all parents in the morning at 10:30. Come with the boys and girls. A. D. Wolfinger, pastor.

South Side Church of Christ.

At the south Lima Church of Christ Lord's day. Pastor Sim's themes are in reference to the late meeting and suggested by questions. At 10:30 "All We Are Brethren." At 7:30 by request "A Woman, The Harlot, Her Harlotry, a Mother of Harlots, Her Eldest Daughter." Rev. 12th chapter to the 14th Read. Come early and get seats. Bring bibles. All desiring baptism be present at 7:30.

Union Mission Chapel.

Jefferson street Union mission Sunday school 2:15. Prayer meeting Friday evening 7:30. All made welcome. D. L. Watts, superintendent.

Grace M. E. Church.

The pastor will preach Sunday morning, subject: "The Bonds Which Bring Peace." Union services in the evening. Singing by Prof. and Mrs. Lowe. Come and hear these eminent gospel singers.

DRY SMOKE

Is Said to Be a Good Thing For Insomnia.

Pipe Alone Necessary, But Imagination May Help a Little, Sometimes.

A man of this city who declares he has no possible interest in a pipe factory, enthusiastically recommends a dry smoke as a cure for insomnia.

"The method is the simplest," he says, "and has the merit of possessing two rare qualities—it is absolutely harmless and without expense—that is, to those who possess a pipe, and few men do not, while to non-smokers or to those who prefer the weed the expenditure of five cents is necessary with which to procure a wooden pipe. As the pipe used upon this occasion must be wooden and curved, straight won't do. The newer schams, too, is tabooed as a means of inducing somnolence, owing to its breakable qualities. The pipe secured and the sufferer retired for the night having previously removed anything that suggests pillows, he must lie flat upon his back and puff steadily at the empty pipe, which will nine times out of ten produce drowsiness and achieve the desired result—sound sleep. One very essential thing that must be adhered to is deep breathing, as though the fumes of an inspiration were being inhaled, and the expelling motions must be made deliberately and with half-closed mouth, so as not to displace the stem of the pipe, as this would distract the mind from its object—sleep. This may not present a very interesting picture, but if adhered to the patient will undoubtedly find relief from insomnia in the puffs, ranging from sixty to a hundred counts. Should the victim be capable of great concentration of thought he may convert the otherwise mechanical situation into a more picturesque one by imagining volumes of smoke, which need not necessarily be inspired with the spirit of a pipe dream. And those who prefer the weed and would upon all other occasions scorn the pipe, will be helped by counting the "puffs."—Washington Post.

A man of this city who declares he has no possible interest in a pipe factory, enthusiastically recommends a dry smoke as a cure for insomnia.

"The method is the simplest," he says, "and has the merit of possessing two rare qualities—it is absolutely harmless and without expense—that is, to those who possess a pipe, and few men do not, while to non-smokers or to those who prefer the weed the expenditure of five cents is necessary with which to procure a wooden pipe. As the pipe used upon this occasion must be wooden and curved, straight won't do. The newer schams, too, is tabooed as a means of inducing somnolence, owing to its breakable qualities. The pipe secured and the sufferer retired for the night having previously removed anything that suggests pillows, he must lie flat upon his back and puff steadily at the empty pipe, which will nine times out of ten produce drowsiness and achieve the desired result—sound sleep. One very essential thing that must be adhered to is deep breathing, as though the fumes of an inspiration were being inhaled, and the expelling motions must be made deliberately and with half-closed mouth, so as not to displace the stem of the pipe, as this would distract the mind from its object—sleep. This may not present a very interesting picture, but if adhered to the patient will undoubtedly find relief from insomnia in the puffs, ranging from sixty to a hundred counts. Should the victim be capable of great concentration of thought he may convert the otherwise mechanical situation into a more picturesque one by imagining volumes of smoke, which need not necessarily be inspired with the spirit of a pipe dream. And those who prefer the weed and would upon all other occasions scorn the pipe, will be helped by counting the "puffs."—Washington Post.

MANY

Concerns Anxious
to Land

But the Board

Has Nothing Definite to
Offer Them.

Secretary Numan Swamped
by a Bunch of Cor-
respondence

And Negotiations Will be Opened
With Several Promising Indus-
tries—New Directors Elected
Last Night.

The railroad by Secretary Numan
at the annual meeting of the board of
trade was not a subject of discussion.
There were no active workers at the
meeting for a long time. The only
business was for the board of trade
to receive reports from the various
committees and to elect new directors.
During the past few weeks
Mr. Numan has received several hun-
dred letters from merchants, manu-
facturers and individuals who have a
desire to locate their interests in Lima
and he was instructed to correspond
with several which had the promise of
developing into something definite.

The state meeting of the Eastern
Star was discussed and a committee
composed of Capt. T. W. Doherty and
A. L. White was appointed to look
after the preliminary. The trustees
elected for the ensuing year were
Harold Cunningham, A. J. White, F.
E. Harman, H. D. Campbell, Dr. Van
Ness, C. H. Folsom, W. J. Mackenzie,
J. C. Grady, J. W. Harbison, A. S.
Hower and Capt. W. Doherty.

They will meet Friday evening next
work in Mr. Numan's office where the
board will be organized in a session
of which follows.

The report of the secretary was
one which should have been a
men of the city up to the date of the
meeting into effect some of the things
suggested and in the future to
be matters of a local character.

work accomplished by
the board of trade during the year.
The interest that the board took in
the water works question very mater-
ially helped to get this proposition
thrown in as we were well organized
for the purpose.

With the assistance of the Lima
Park & Improvement Company, we
have succeeded during the year in
having the Bowers & Welling Mfg
Company locate in this city.

Have also practically made for the
lot owners in the Lakewood and Park
additions of Lima, fifty (\$50.00) dol-
lars each, in all amounting to \$25-
\$5000 and have the satisfaction of
seeing the Lima Locomotive & Ma-
chine Company in operation and it is
today the largest manufacturing con-
cern Lima ever had having five hun-
dred and seventy-five (575) people on
their pay roll.

In addition to this we have succeed-
ed in putting the east Market street
shops into good hands and no doubt,
will prove one of the best concerns in
the city.

The secretary has received within
the last few days propositions from
not less than five hundred manufac-
turing concerns (and concerns organ-
ized for the purpose of manufactur-
ing) seeking new locations, but it
seems that it takes more than our
spread shipping facilities to get them
interested.

I am very sorry to say that the peo-
ple of Lima do not understand the
necessity of having an up to date or-
ganization in Lima such as the im-
portance of this city requires. I had
a statement from the board of trade
of Columbus a short time ago and
their membership amounts to about
three thousand and their receipts
during the year were thirty-one thou-
sand (\$31,000.00) dollars. Our great
need is to get a committee interested
enough to solicit new members, and
have a more complete organization
than we have ever had before. There
is no reason why we should not have
a membership of one thousand (1,000).

In addition to the above state-
ment the secretary promised the
Bowers & Welling Mfg Company (as
an inducement to locate in Lima) to
pay the freight on their machinery
from Columbus, the amount not to ex-
ceed \$500.00. We have but \$19.95 on
hand, it behooves us to do something.

The secretary is negotiating with
the different railway companies for
rates for the Ohio Christian Mission-
ary Society and the Ohio Christian
Women's Board of Mission of the
Church of Christ who expect to hold
their annual meeting here during the
month of May at which about twelve
hundred delegates will be present.
The board of trade have promised to
furnish a suitable place to hold their
convention.

Yours truly,
W. F. NUMAN, Secretary
of the Officers of the Lima Board of
Trade.

TERM

Has Settled Lots of
Cases

But the Jury

Has Had But Little Hard
Work to Do.

Two Cases Decided by Judge
Cunningham During To-
day's Session

And a New Damage Suit was Filed
by Johnathan Barr Who was
Injured by a Falling
Awning.

The April term of court is only a
little ways off and the ragged edges of
the winter term are being gathered up
and trimmed as carefully as the cir-
cumstances permit. Reference has
been made several times of the failure
to bring cases to trial but in spite
of the fact that but ten cases have
been disposed of by the jury since last
December the docket shows that no
less than eighty-five civil suits have
been marked off the docket.

The criminal work promised well
but nearly every case was postponed
and those not brought to trial were
otherwise disposed of pleas of guilty
rendering it unnecessary to go to the
expense of summoning the jury. The
April term will offer a departure from
the monotony of the past few weeks
as there is a determination on the part
of the court to bring everything to the
surface which is now buried in the
docket.

Damage Suit
Leon Loewenstein is made the de-
fendant in a damage suit filed today
by Leete & Brotherton on behalf of
Jonathan N. Barr. The complaint is
made that the defendant had an awn-
ing insecurely fastened to his building
on the south east corner of the square
and it fell while the plaintiff passed
beneath it fracturing his collar bone
and injuring his shoulders. He claims
to have been damaged to the extent of
\$1000.

Cases Decided.
Judge Cunningham had no divorce
cases to dispose of today which
was unusual for Saturday, but he took oc-
casion to decide two civil actions
which had been submitted. In the
case of Higgenbotham vs Lawlor the
court found for the defendant and the
case of Blank vs Risher the plaintiff
was given the decision.

SLIPPED

On the Floor and Broke
His Arm.

The gymnasium at the Y. M. C. A.
this morning was the scene of an ac-
cident the first of any serious conse-
quence which has occurred for a long
time. The victim in this instance
was Walter Rouzer, a son of Mrs.
Sadie Rouzer of 128 east North street.
According to the report received from
the Y. M. C. A., young Rouzer came
down from the running track to the
gymnasium floor between classes and
endeavored to do some high kicking.
Not having on the rubber soled shoes,
his feet slipped from under him and
in falling, his left wrist was fractured.
Dr. Laudick set the broken bone,
which was not badly misplaced and
the lad was taken to his home, where
he will be laid up for several weeks.

DEMOCRATIC

Victory Predicted by Toledo
Bee Correspondent.

The correspondent for the Toledo
Bee sent the following view of the lo-
cal political situation to the news-
paper he represents.

Every indication points to a Demo-
cratic municipal victory here in April
owing to the bitter factions in the G.
O. P. ranks one faction having op-
posed the renomination of Mayor
Rogers after one year in office.
Mayor Rogers is also being bitterly
fought by the church element. The Rev.
Mr. Anderson pastor of Epworth is
the church leading the ministerial bat-
tle. Theo. D. Robb, Democratic can-
didate and ex-probate judge has a
large colored following which alone
it is thought will carry the normal Re-
publican majority of 500 in the city
to a minimum.

DAN GROSVENOR SAYS:

"Pe-ru-na is an Excellent Spring Catarrh
Remedy—I am as Well as Ever."

HON. DAN. A. GROSVENOR, OF THE FAMOUS OHIO FAMILY.
Hon. Dan. A. Grosvenor, Deputy Auditor for the War Department, in a letter
written from Washington, D. C., says:

"Allow me to express my gratitude to you for the benefit derived
from one bottle of Peruna. One week has brought wonderful changes
and I am now as well as ever. Besides being one of the very best
spring tonics it is an excellent catarrh remedy."—
DAN. A. GROSVENOR.

In a recent letter he says:
"I consider Peruna really more meritorious than I did when I wrote
you last. I receive numerous letters from acquaintances all over the
country asking me if my certificate is genuine. I invariably answer,
yes."—Dan. A. Grosvenor.

A County Commissioner's Letter.
Hon. John Williams, County Commis-
sioner, of 517 West Second street, Minn.,
says the following in regard to
Peruna.

"As a remedy for catarrh I can cheer-
fully recommend Peruna. I know what
it is to suffer from that terrible disease
and I feel that it is my duty to speak
a good word for the tonic that brought me
immediate relief. Peruna cured me of a
bad case of catarrh and I know it will
cure any other sufferer from that dis-
ease."—John Williams.

A Congressman's Letter.
Hon. H. W. Ogden, Congressman from
Louisiana, in a letter written at Wash-
ington, D. C., says the following of Pe-
runa, the nation's catarrh remedy.

"I can conscientiously recommend
your Peruna as a fine tonic and all
around good medicine to those who
are in need of a catarrh remedy. It
has been commended to me by people
who have used it, as a remedy par-
ticularly effective in the cure of cat-
arrh. For those who need a good
catarrh medicine I know of nothing
better."

Address Dr. Hartman, President of
The Hartman Sanatorium, Columbus, O.

W. E. Griffith, Coates, Texas, writes:

"I suffered with chronic catarrh for
many years. I took Peruna and it com-
pletely cured me. I think Peruna is the
best medicine in the world for catarrh.
My general health is much improved by
its use, as I am much stronger than I
have been for years."—W. E. Griffith.

A Congressman's Letter.
Congressman H. Bowen, Rankin, Tazewell
county, Va., writes:
"I can cheerfully recommend your
valuable remedy, Peruna, to any one
who is suffering with catarrh, and who
is in need of a permanent and effective
cure."—H. Bowen.

Mr. Fred. D. Scott, Lucas, Ohio, Right
Guard of Elfron Foot Ball Team, writes:
"As a specific for lung trouble I place
Peruna at the head. I have used it my-
self for colds and catarrh of the bowels
and it is a splendid remedy. It restores
vitality, increases bodily strength and
makes a sick person well in a short time.
I give Peruna my hearty endorsement."
Fred. D. Scott.

Gen. Ira C. Abbott, 506 M street, N. W.,
Washington, D. C., writes:
"I am fully convinced that your reme-
dy is an excellent tonic. Many of my
friends have used it with the most ben-
eficial results for coughs, colds and cat-
arrhal trouble."—Ira C. Abbott.

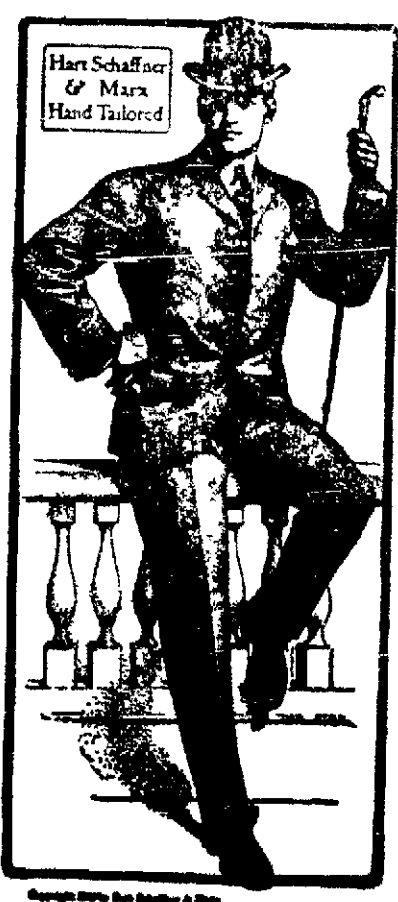

Mrs. Elmer Fleming, orator of Reser-
voir Council No. 105, Northwestern Le-
gion of Honor, of Minneapolis, Minn.,
writes from 253 Polk street, N.E.:
"I have been troubled all my
life with catarrh in my head. I
took Peruna for about three
months, and now think I am
permanently cured. I believe
that for catarrh in all its forms
Peruna is the medicine of the
age. It cures when all other remedies
fail. I can heartily recommend Peruna
as a catarrh remedy."—Mrs. Elmer
Fleming.

Treat Catarrh in Spring.
The spring is the time to treat catarrh.
Cold, wet winter weather often retards
a cure of catarrh. If a course of Peruna
is taken during the early spring months
the cure will be prompt and permanent.
There can be no failure if Peruna is
taken intelligently during the favorable
weather of spring.

As a systemic catarrh remedy Peruna
eradicates catarrh from the system
wherever it may be located. It cures
catarrh of the stomach or bowels with
the same certainty as catarrh of the head.
If you do not derive prompt and sat-
isfactory results from the use of Peruna,
write at once to Dr. Hartman, giving a
full statement of your case and he will
be pleased to give you his valuable ad-
vice gratis.

Address Dr. Hartman, President of
The Hartman Sanatorium, Columbus, O.
